

The screenshot shows the Code Beautify XML Viewer interface. The main area displays a large XML document with a 'Tree View' button and 'Auto Update' checkbox. The 'Output' panel on the right shows the formatted XML. The interface includes a top navigation bar with 'JSON Formatter', 'XML Formatter', 'Calculators', 'JSON Beautifier', and 'Recent Links'. A sidebar on the right shows a user profile for Gerardo Antonio García and a calendar for December 7, 2023.

The screenshot shows the Visual Studio Code editor with a Python script named 'Script1.py'. The script uses the ncclient library to connect to a Cisco IOS-XE device and retrieve configuration data. The output of the script is displayed in the 'TERMINAL' panel, showing the XML response from the device.
